Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: The claimed invention recite inputting an output of the oil well model of trained neural network to a geologic model or inputting an output of the oil well model of trained neural network to a valuing model as shown in claim 1, last line or claim 9, line 5. The prior art Yang et al, "A Neural Network Approach to Predict Existing and In-Fill Oil Performance", IEEE, IJCNN, July 2000 recites a neural network that manipulates oil well parameters (see abstract). However, the prior art fails to teach or fairly suggests inputting an output of the oil well model of trained neural network to a geologic model or to a valuing model.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
